

JAN CHRISTOPHER BUEN

WordPress Developer & SEO Specialist

Philippines (Remote, US clients) | buenjanchristopher@gmail.com | [linkedin.com/in/jan-christopher-buen](https://www.linkedin.com/in/jan-christopher-buen) | github.com/rankcraftweb

SUMMARY

WordPress developer and SEO specialist who designs, builds, hosts, and ranks websites for US businesses, currently managing five live production sites. Combines technical SEO (structured data, Core Web Vitals, local SEO) with hands-on PHP and Next.js development, backed by 10+ years of manufacturing QA and engineering work that trained a habit of verifying every fix, not just trusting tool scores.

CORE SKILLS

- WordPress: custom themes/plugins (PHP), Elementor, WooCommerce
- Technical SEO: crawling, indexing, sitemaps, canonicals, redirects
- Schema markup, structured data, on-page and local SEO
- Core Web Vitals and page speed optimization
- Website migrations and hosting management
- Next.js, React, TypeScript, REST APIs, Git

Tools: Google Search Console, GA4, Google Tag Manager, Google Site Kit, Rank Math, PageSpeed Insights / Lighthouse, Rich Results Test, LiteSpeed Cache, IDX Broker, Cloudflare Turnstile, Hostinger, Vercel, SSH, WP-CLI

EXPERIENCE

Web Developer & SEO Specialist (Part-time, Remote) | Ironclad Sites & affiliated businesses Mar 2026 – Present

- ironclad-sites.com:** built a website design brand for contractors, with a WooCommerce shop selling subscription website plans and logo/vector add-ons, on a custom Hello Elementor child theme. PageSpeed 95–99 on mobile and desktop.
- rossimovestheeast.com:** built a New York–Florida realtor site with IDX Broker MLS search across two boards (OneKey MLS, BeachesMLS), Turnstile-protected lead forms, Google Tag Manager, and RealEstateAgent schema covering both states' service areas. PageSpeed 95–99.
- practicalexteriormaintenance.com:** migrated the site off the agency that originally built and hosted it, then took over optimization and local SEO for paver sealing, power washing, and tick & mosquito spraying services across Nassau and Suffolk County, NY.
- paversealingacademy.com:** built a lead-generation site for a hands-on contractor training program, with an application funnel and GA4 tracking.
- nexorany.com:** built a company site for Nexora Technologies, a website, app, and custom software developer, on the Blocksy theme.
- Handle on-page SEO and structured data on every build with Rank Math; schema validates with zero errors in Google's Rich Results Test. Built a custom schema plugin where off-the-shelf plugins fell short.

PROJECTS

Website Audit Tool & Custom WordPress Build (personal project) 2026

audit.rankcraftweb.com | github.com/rankcraftweb/rankcraft-audit

- Built a three-part system end to end (WordPress site, Next.js audit tool, lead tracker) connected through server-to-server REST APIs.
- Audit tool:** Next.js, TypeScript, and Tailwind CSS on Vercel. Calls the PageSpeed Insights API server-side, so the API key never reaches the browser, and reports Lighthouse scores for mobile and desktop.
- WordPress site:** hand-coded theme with no page builder, custom post types, blog, case studies, and a Turnstile-protected contact form; passed a full pre-launch SEO, performance, accessibility, and security audit.

PREVIOUS EXPERIENCE

Technician 1, Product Engineering (Mfg.) | Analog Devices Inc. Jun 2022 – Feb 2026

- Set up, converted, calibrated, repaired, and maintained automated test handlers for Final Test, Wafer Sort, and Tape & Reel, including preventive and predictive maintenance and board/hardware repair.
- Performed first-level verification of yield and QA failures and basic tester debugging, documenting findings through the MIPS process.

QA Engineering Aide | onsemi Philippines Inc. Feb 2018 – Mar 2021

- Maintained QA documentation and quality dossiers (MRB, EFAR, ICAR, LPA), keeping records complete and traceable.
- Coordinated inspections and audits with production, engineering, and customers; tracked nonconformances and corrective actions to closure.

Technical Assistant | LBG Industries Inc. Oct 2013 – Jan 2018

- Managed product specification records for rubber hose assemblies and verified master samples, tools, and parts against blueprints before release.

EDUCATION

B.S. Industrial Technology, Mechanical Technology | Aurora State College of Technology
