### SUMMARY

Freelance WordPress and WooCommerce developer who builds, hosts, speeds up and maintains websites and online stores for businesses. Writes custom themes by hand (PHP, ACF, custom post types), sets up WooCommerce with payment gateways, and handles launch end to end: hosting, domain, SSL, forms and SEO. Currently managing five live production sites, scoring 95–99 on PageSpeed Insights for mobile. Brings 10+ years of manufacturing QA and engineering experience, with a habit of verifying every fix on real output rather than trusting tool scores alone.

### CORE SKILLS

- Custom theme development:** HTML/CSS design to PHP theme, template hierarchy, custom post types, Advanced Custom Fields (ACF)
- Mobile performance:** Core Web Vitals, image resizing/compression, caching, PageSpeed mobile 95–99
- WooCommerce:** store setup, subscription products, Square payment gateway integration
- Technical SEO:** page titles, meta descriptions, sitemaps, Search Console, schema markup
- Also:** Next.js, React, TypeScript, REST APIs, Git
- Tools:** Google Search Console, GA4, Google Tag Manager, Rank Math, PageSpeed Insights / Lighthouse, Rich Results Test, LiteSpeed Cache, Cloudflare, Hostinger, Vercel, SSH, WP-CLI, IDX Broker
- Responsive front end:** mobile-first HTML, CSS, JavaScript; mobile navigation, tap targets, readable type
- Hosting & launch:** hosting setup and management, domains/DNS, SSL, site migrations
- Forms & lead capture:** spam-protected enquiry forms (Cloudflare Turnstile), GA4 and GTM tracking
- Maintenance:** updates, troubleshooting, migrations off other hosts and agencies
- Page builders (when a project calls for one):** Elementor

### FEATURED BUILD: HAND-CODED THEME & AUDIT TOOL

- RankCraft Web: Custom WordPress Theme & Website Audit Tool** 2026
- [rankcraftweb.com](https://rankcraftweb.com) | [audit.rankcraftweb.com](https://audit.rankcraftweb.com) | [github.com/rankcraftweb/rankcraft-audit](https://github.com/rankcraftweb/rankcraft-audit)
- Hand-coded a custom WordPress theme in PHP with no page builder. Custom post types for case studies, a blog, and content editable from the WordPress dashboard.
  - Built a Turnstile-protected contact form; the site passed a full pre-launch SEO, performance, accessibility and security audit.
  - Connected the site to a Next.js/TypeScript audit tool on Vercel through server-to-server REST APIs. The tool calls the PageSpeed Insights API server-side, so the API key never reaches the browser.

### EXPERIENCE

- Web Developer & SEO Specialist (Part-time, Remote) | Ironclad Sites & affiliated businesses** Mar 2026 – Present
- rossimovestheeast.com:** built a realtor site for a New York and Florida agent, with IDX Broker MLS search across two boards, Turnstile-protected lead forms, Google Tag Manager, and RealEstateAgent schema covering both states. PageSpeed 95–99.
  - practicalexteriormaintenance.com:** migrated the site off the agency that built and hosted it, then took over optimisation and local SEO for a Long Island services business. Used ACF to make site content editable.
  - nexorany.com:** built the company site for Nexora Technologies, a website, app and custom software developer.
  - ironclad-sites.com:** built a web design brand for contractors, including a WooCommerce shop selling subscription website plans and logo/vector add-ons with Square payments, on a custom child theme with ACF. PageSpeed 95–99 on mobile and desktop.
  - paversealingacademy.com:** built a lead-generation site for a contractor training program, with an application funnel and GA4 tracking.
  - Set up page titles, meta descriptions, sitemaps and structured data on every build; schema validates with zero errors in Google's Rich Results Test. Wrote a custom schema plugin where off-the-shelf plugins fell short.

## PREVIOUS EXPERIENCE

---

### Technician 1, Product Engineering (Mfg.) | Analog Devices Inc.

Jun 2022 – Feb 2026

- Set up, calibrated, repaired and maintained automated test handlers; performed first-level verification of yield and QA failures and documented findings.

### QA Engineering Aide | onsemi Philippines Inc.

Feb 2018 – Mar 2021

- Maintained complete, traceable QA documentation; coordinated inspections and audits with production, engineering and customers; tracked corrective actions to closure.

### Technical Assistant | LBG Industries Inc.

Oct 2013 – Jan 2018

- Verified master samples, tools and parts against blueprints before release, and managed product specification records.
